

# Catawba County, May 2023

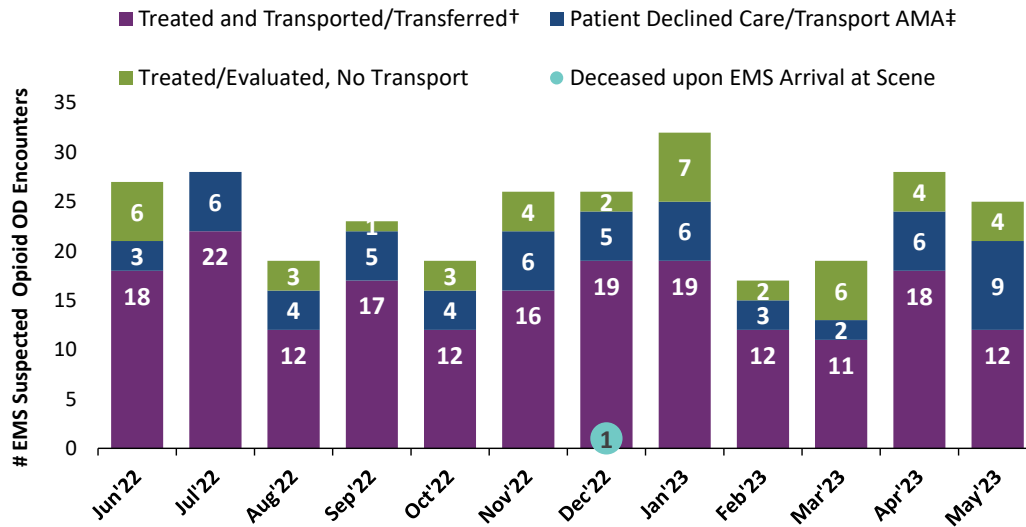

NC DEPARTMENT OF  
HEALTH AND  
HUMAN SERVICES  
Division of Public Health

## 121

## EMERGENCY MEDICAL SERVICES (EMS) ENCOUNTERS FOR SUSPECTED OPIOID OVERDOSE\*

### EMS Suspected Opioid Overdose Patient Disposition Last 12 Months, Catawba County, 2022-2023\*

†Transport refers to transport to hospital. Transfer occurs between EMS agencies.

‡Against Medical Advice

**Note:** Counts based on North Carolina Disease Event Tracking and Epidemiologic Collection Tool (NC DETECT) opioid overdose indicator case definition: patients >11 years old, AND encounters with opioid-related primary or secondary impression AND documented administration of naloxone OR naloxone AND unresponsive keyterms in the narrative.

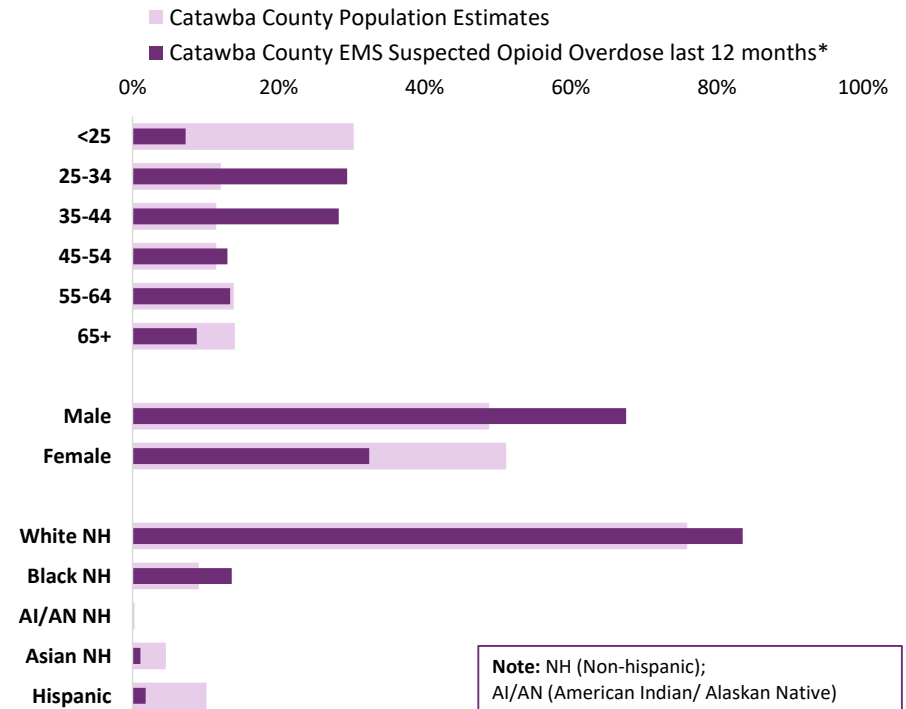

*Year to date (May 2023), 121 of the 121 suspected opioid overdose encounters in Catawba County received naloxone, and 120 (99%) had an improved response to naloxone.*

\*EMS data are provisional and should not be considered final. All "EMS Opioid OD" counts reflect *suspected* opioid overdose encounters, based on the 'Opioid Overdose' EMS Indicator developed by NC DETECT. Population Data-U.S. Census Bureau, <http://quickfacts.census.gov>. For training on NCDETECT, contact Amy Ising, [ising@ad.unc.edu](mailto:ising@ad.unc.edu).

### 121 EMS Suspected Opioid Overdose Encounters in Catawba County May 2023\* YTD

Compared to **96** Jan-May 2022\*

### EMS Suspected Opioid Overdose Encounters by Race/Ethnicity and Age Group<sup>y</sup>

**Note:** NH (Non-hispanic);  
AI/AN (American Indian/ Alaskan Native)

<sup>y</sup> Overdose percentages that exceed population estimates within a subgroup indicate a population that may be disproportionately impacted.
